Wednesday 11th June 2025

Dear Parents/Carers,

Between 30th of June and 4th of July, your child will be taking part in Inspire's World of Work Week programme in partnership with Coppice Primary School. This is a weeklong, careers-focused learning programme, during which students will learn about a variety of different careers through participating in various exciting workshops and activities. Additionally, each year group will either go on a trip or have a volunteer-led workshop at school. Our WoW programme aims to increase students' aspirations, challenge stereotypes and break down barriers to learning about the world of work. It will also allow students to develop various transferable skills that will benefit their learning within the classroom beyond World of Work Week.

The themes for this year's World of Work Week are as follows:

Nursery: My First Job (in school workshop)
Students are introduced to the World of Work and explore the following jobs through role play, dress-up and other interactive activities: Doctor, builder, Shopkeeper and Postal Worker.

Reception: Jobs with Nature (in school workshop)

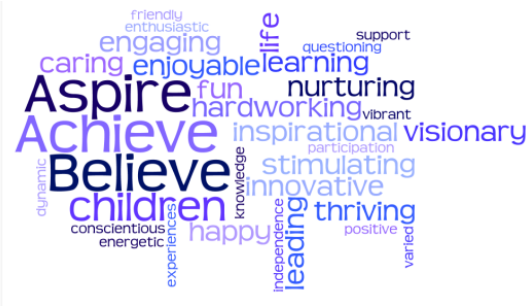

Students learn about jobs that involve working with the natural world: Gardener, Vet, Farmer, and Zoologist.

Year 1: Emergency Services (in school workshop)
Students learn about several jobs within the emergency services: Police, Fire fighters and Paramedics.

Year 2: Community Jobs (off site – trip)
Students learn about several jobs that have an important place within our local communities and involve services to the public. These jobs are in the following sectors: Hospitality, Health, Fixing and Fitness.

Year 3: Building Futures (off site – trip)
Students learn about jobs involved in working within the built environment, including the fields of Architecture, Construction and Engineering. Sustainability is a key theme throughout.

Year 4: Showcase (in school workshop)
Students learn about jobs within the theatre and performing arts industries, including jobs both on and off stage: Screen Writer, Set Designer, Lighting Technician and Performer.

Year 5: Ethical Business (off site – trip)
Students learn about what it means to run an ethical business and work in groups over the course of the week, taking on different job roles and designing and presenting their very own ethical businesses.

Year 6: Tech Masters (off site – trip)
Students learn about a variety of jobs within the technology field, using their learning about business and technology to work in groups to design and present their very own apps.

Some of the trips will take place outside of the World of Work Week, further details will be shared on ParentMail for each year group.

Please note that all children will require a separate photo consent form to be completed, this will also be available on ParentMail.

Kind regards,

Coppice Primary School
