Dear Parent/Carer,

Exciting Developments to our Specialist SEND Provision

We are delighted to share some exciting developments to the specialist support available for children with additional educational needs at Coppice Primary School.

We are introducing our newly developed Specialist SEND Provision, which has been carefully designed to provide highly personalised teaching and support for pupils with the most significant and complex special educational needs. Our aim is to ensure every child has the opportunity to make meaningful progress academically, socially and emotionally while continuing to feel valued, included and successful within our school community.

The provision has been developed in line with the SEND Code of Practice and reflects our commitment to providing an ambitious curriculum that is adapted to meet each child's individual strengths, interests and learning needs. Rather than expecting every child to access learning in exactly the same way, we personalise teaching and support so that children can achieve success from their own starting points.

Children accessing the Specialist SEND Provision will follow a personalised curriculum during the morning, where they will benefit from small-group teaching, targeted interventions and individual support. Learning will be carefully planned by the SENDCO and delivered by our experienced HLTA and Teaching Assistants, with the SENDCO providing ongoing oversight, monitoring and daily support within the provision. As with all pupils, your child's class teacher will continue to have overall responsibility for their education and progress.

During the morning, children may access learning in areas such as:

- English
- Phonics and Communication
- Mathematics
- Speech and Language programmes
- Individual learning targets
- Social communication and social skills
- Attention and listening activities
- Personal, Social and Health Education (PSHE)
- Sensory regulation and exploration
- Emotional regulation and wellbeing
- Independence and life skills

In the afternoons, children will return to their mainstream class to learn alongside their peers wherever appropriate. This will include foundation subjects such as Art, Music, PE, History, Geography and Computing, as well as Forest School, educational visits, performances, assemblies, playtimes and other enrichment opportunities. We believe these experiences are an important part of school life and support children in developing friendships, confidence and a strong sense of belonging.

The Specialist SEND Provision offers a calm, structured and nurturing learning environment where children can develop the skills they need to become confident, independent learners. Our aim is not to separate children from their peers, but to provide additional support that enables them to participate successfully within mainstream school life.

We appreciate that you may have questions about how the provision will work and what it will look like for your child. Please feel free to speak with myself at any point, and I will be happy to talk you through the provision in more detail, explain how it will support your child and answer any questions you may have.

We are excited about this new approach and the opportunities it will provide for our children. We look forward to continuing to work in partnership with you to ensure your child receives the support they need to flourish.

Thank you for your continued support.

Yours sincerely,

Mr Grech
